

THINK TECHSMART® FIRST

EGR Transducers

Replace only the failed transducer not the entire EGR assembly.

TechSmart® EGR Transducers match OE for flow rate and port angle exactly 1 to 1. Unlike the competition, there is no need to clock the EGR transducer for proper fit. Clocking the transducer risks damaging the fragile internal rubber diaphragm. With a TechSmart® EGR Transducer you get OE fit, form, and function right out of the box!

EGR Valve Assembly

EGR Transducer

G28024	Universal Part A	NEGATIVE+SOL	150
G28025	Universal Part A	NEGATIVE+SOL	240

G28001

- Dodge/Chrysler/Plymouth Minivans 2000-96
- VIO over 1.3 million

G28003

- Dodge/Jeep Light Trucks 1996-92
- VIO over 1.1 million

G28005

- Dodge/Chrysler Minivans 2002-01
- VIO over .6 million
